STRICTLY IN ADVANCE.

Ridley Draper is in Nashville this week transacting business for the firm of McDearman Stafford Co.

A number of the younger set were delightfully entertained at the home of Johnie Gibson's Friday night.

Miss Johnie Brown, of Harts-ville R-3, has returned home, after a visit of two weeks with her grand-father, Geo. Flynn on Gainesboro R-2.

Fred Denson, of Dycus, was in Gainesboro Saturday and Sunday. He is thinking seriously about accepting a position in Gainesboro.

Dillard and Ed Harley, of Nashville, were visitors in Gainesboro, Monday. Dillard was discharged from the army last week.

M. P. Bailey & Son entailed their new Soda Fountain last week. They serve the drinks in sanitary paper cups, which is meeting the approval of all his customers.

Mr. and Mrs. R. G. Draper, of Memphis, who are visiting

friends and relatives here, will spend a day or two at Red Boiling Springs, before they return home.

Mr. and Mrs. Scip Young, of Cookeville, spent the week-end here, the guests of H. G. Young and family. They moved to Cookeville from Los Angeles, Cal. several months ago, their Gainesboro friends were glad to see them, this being their old home.

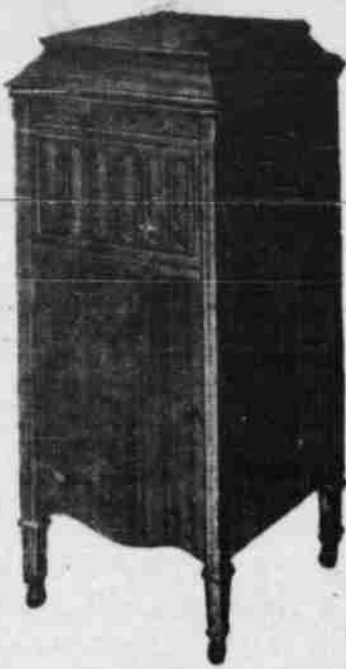

A healthy, stalwart, large-sized middle-aged, reasonably good looking man, of the good old 14th district, accompanied by John Butler and Orville Brooks, made us a pleasant visit early Monday morning. This gentleman, whose name is omitted for reasons best known to ourselves, was finally argued into signing his check for a year's subscription to the Sentinel, and he did it, knowing that he was making a wise investment.

The Methodist Sunday school will have its annual picnic, next Friday, June 13th, at Johnson's Park. The day's program will consist of, songs, recitations, Games, spelling matches, and other features, calculated to make a youngster have a good time. Among other things, lemonade will be plentiful, and a rousing, joyous, day is looked forward to, by the little tots, which number about 80. All will take lunch. Transportation will be furnished by automobile owners of the town.

Pathe instruments—Pathephones—built under rigid specifications by the Pathe-Feres Phonograph Co., Paris-New York, in the excellence of tone, in the beauty of cabinet design, in the finish of the woods, and in the care of assembling, is the most perfect phonograph that human skill and genius can produce.

The Pathe Sapphire Ball which does away with old fashioned steel needles, glides smoothly around the record like a drop of water. This round polished jewel fits exactly into every record groove and accurately reproduces every shading of the selection. The music flows off; no needles to change; no needles to buy; always ready to play. No wear on the records; every Pathe record guaranteed to play 1000 times.

The Pathe All-wood Violin Tone Chamber eliminates the harsh metallic sounds, so objectionable in ordinary talking machines. It matters not whether it be the delicate tones of the ukelele; the rich, resonant tones of the trombone; the soft mellow tones of the flute, or the various tones produced by the human voice—all are reproduced faithfully.

The Pathe Controla enables you to play any record loudly or softly with the same Sapphire Ball. The martial strains of a Pathe Band Record can be softened for your drawing room, or you can make the lively Jazz of the latest dance loud enough to be heard over the dance floor.

The Famous artist of Europe and America are making records for the Pathe, because they know that only on the Pathe records are they sure that every shading and expression of the selection as they interpret them, are faithfully reproduced. You can hear the best songs and opera arias, the popular marches and symphonies on the Pathe records.

Keep up with Broadway. Pathe has the latest hits first and best; the new songs that Broadway is whistling; the popular one-step, Jazz and fox trot. The best orchestration of the new songs, and the most unusual novelties are always found on the Pathe records.

And remember, the Pathe plays all makes of records, yet the Pathe cost no more than other standard machines.

SEE US FOR A GOOD SERVICEABLE BUGGY

We are proud of our line of buggies. They are good-looking, light-running and easy-riding. Best of all, they stand hard service—they are good buggies, not only when new, but after long usage.

Your neighbor probably has one of our line of buggies. If it is a John Deere-Reliance Buggy, he bought it from us. If you will ask him about it, he'll tell you that it is a mighty satisfactory buggy.

The special flange on our buggies increases the strength of the hub 50 per cent.

The bodies are plugless and thoroughly braced; paint does not crack or check, and the bodies do not split or squeak.

The shafts of best grade, straight-grained hickory, are specially ironed and braced to bind every joint firmly. Shaft eyes are made to eliminate the danger of breakage in travel.

The dustproof axles are extra strong—they carry the load.

Our buggies stand the closest inspection. There is quality in every feature. Come in and look them over.
